

Building tomorrow's world

TRADESWOMEN NI is a unique directory of tradeswomen that brings together skilled female workers in non-traditional industries, providing training, employment and enterprise opportunities.

TRADESWOMEN NI works with both the community and voluntary sectors providing training courses and workshops. These are specifically designed and delivered for individual groups needs.

The training is provided by qualified tutors and can be delivered at the WOMEN'STEC workshops and training suites or it can be delivered at the organisations own premises.

TRADESWOMEN NI
Building tomorrow's world
